As discussed in our meeting, I am resending the location of the most current formaldehyde materials.

- Current draft and appendix (be sure edits are not made to these primary documents; please, copy your section, make edits in track changes, and send to Barbara and I):

L:\lab\NCEA\FORMALDEHYDE\2015 Draft Assembly Materials

- Public comments (Barbara is working on cross-walking these with the NAS comments), which some have expressed interest in scanning:

Sorry, by "fill in" I am simply asking you to email me what you would indicate/ update the right-hand most column to say about your section(s), and provide an explanation and rationale (e.g., by 10/01/15; I need to move acute studies to an appendix and add a graphic, and my priority is Lean for the next 2 weeks)...

Thanks,  
Andrew

We will be discussing the attached excel spreadsheet in today's meeting.

If you cannot attend, please take a few minutes and fill in your best guess about your piece(s) and what is needed, and also be sure to let Barbara and I know what we can do to help. Note: this doesn't need to be detailed.
